Kansas African American Museum formerly the venerable Calvary Baptist Church was once the cornerstone of Wichita's vibrant black community. It was built in 1917 when the congregation's leaders worked nights and weekends -separate and apart from their jobs to finish the church. That community featured restaurants, businesses, and homes. It hosted jazz artists, Negro League baseball stars, and was the home of America's first African American Academy Award winner and the Rev. Martin Luther King Jr.'s lawyer among others. The people who worshiped here endured painful racial segregation and fought those conditions with dignity. The museum stands as a monument to human endurance as well as to dignity. 601 N.
